Table drawing / interfa	-				
Documents to be Table drawing / interfa	-				
Table drawing / interfa	ace drawing	Туре			
Table drawing / interfa	ace drawing	Type rev./min.			
Table drawing / interfa	ace drawing	rev./min.			
Table drawing / interfa 2 Machine Type: other: Max. permissible table load:	ace drawing 	rev./min.			
Table drawing / interfa	ace drawing 	rev./min.			
Table drawing / interfa 2 Machine Type: other: Max. permissible table load:	ace drawing 	rev./min.			
Table drawing / interfa	ace drawing Manufacturer Spindle speed: kg manual horizontal temperature	rev./min.			
Table drawing / interfa Machine Type: other: Max. permissible table load: Environment Loading Environmental conditions:	ace drawing Manufacturer Spindle speed: kg manual horizontal temperature interfering contour	rev./min. autom robots vertical	coolant abrasive dust		
Table drawing / interfa 2 Machine Machine Type: other: Max. permissible table load: 3 Environment Loading	ace drawing Manufacturer Spindle speed: kg manual horizontal temperature	rev./min. autom robots vertical			
Table drawing / interfa Machine Type: other: Max. permissible table load: Environment Loading Environmental conditions:	ace drawing Manufacturer Spindle speed: kg manual horizontal temperature interfering contour pcs./min	rev./min. autom robots vertical			

4 Operating time

	Shift operation	no	2-shift	3-shift			
5	Clamping station						
	What type of device is required?	Clamping station	Grid plate	Tower			
	What will be clamped in PNG?	Vices	Pallet	workpiece directly			
	Which machining forces / torques arise?						
	Which security measures are necessary?	none	pallet system control	clamping slide query			
	Number of clamping nests:	Pi	ece				
	Does a medium pass through the device to the pallet?	no	yes	scription			
6	6 Module type and control						
Which module type is proposed:							

Turbo	yes	no	
control of the modules:	common (via quick coupling)	single (central air connection + valve strip)	machine rotary union
