Your complete procurement and storage solution!

When it comes to procuring tools, it soon becomes clear that this is an area where many resources are required. To simplify these complex processes and ultimately achieve more effective tool procurement, the specialist Cutting Tools team from the CERATIZIT Group offers a comprehensive selection of innovative and customised solutions to meet your needs. Our commitment is that you will always have the right tool at the right time – for guaranteed success.

Our commitment is that you will always have the right tool at the right time – essential for your success.

- ▲ Technical Advice
- ▲ Identification of requirements
- ▲ Consignment stock
- ▲ 24/7 dispensers
- ▲ Automatic replenishment
- ▲ Itemised reports
- ▲ Cost optimisation
- ▲ Statistics and analysis

The conventional way of tool procurement is time consuming and costly, prolonged machine stoppages delay the processes.

Tool procurement with TOOL SUPPLY 24/7

You decide on the products and access authorisations.

We support you with the identification of requirements, system selection and installation.

Transparency

- ▲ Through personalised removal
- ▲ Targeted allocation of authorisations
- ▲ Various evaluations
- ▲ Capture of cost centers

Highest availability

- ▲ Reduced interference possibilities in the process
- ▲ Monthly billing / extended payment terms
- ▲ B2B interface

TOOL-O-MAT 840

Unique storage solution

Up to 840 different products can be stocked in the machine. The flexible storage bins adjust to the size of the product and guarantee maximum efficiency / utilisation.

The daily stock management and the CERATIZIT replenishment service ensure that the right tools are available when they are required.

Personalised design options

Choose your favourite from our top five designs for the TOOL-O-MAT 840:

Drilling, WTX – UNI

Turning, HCR 1135

Shoulder Milling Cutter, 491

Milling, AluLine

DRAGONSKIN –
Coating technology

TOOL-O-MAT 80

The modern classic

This modern tool dispensing system displays up to 80 different products through its clear front panel. This enables users to quickly select tools using a touchscreen instead of laboriously searching through the catalogue. The flexible configuration of the compartments makes storing even heavy products easy, allowing them to be safely retrieved using the lift and deposited in the output tray. Up to four machines can be connected to the control unit, which saves space and also provides increased storage capacity if required.

As with our other tool dispensing systems, the TOOL-O-MAT 80 guarantees that you will never run out of the tools you urgently need. We are responsible for refilling them and will always make sure that your most popular tools are available. And of course, you will only pay for the tools once they are removed from the machine.

Up to four machines per control unit

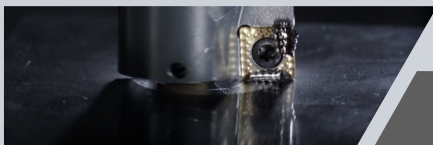

UNITED. EXPERIENCED. METAL CUTTING.

**SPECIALIST FOR INDEXABLE INSERT TOOLS
FOR TURNING, MILLING AND GROOVING**

The product brand CERATIZIT stands for high-quality indexable insert tools. The products are characterized by their high quality and contain the DNA of many years of experience in the development and production of carbide tools.

**THE QUALITY LABEL FOR
EFFICIENT BORE PRODUCTION**

High-precision drilling, reaming, countersinking and boring is a matter of expertise: efficient tooling solutions for drilling and mechatronic tools are therefore part of the KOMET brand name.

**EXPERTS FOR ROTATING TOOLS,
TOOL HOLDERS AND CLAMPING SOLUTIONS**

WNT is synonymous with product diversity: solid carbide and HSS rotating tools, tool holders and efficient workholding solutions are all part of this brand.

**CUTTING TOOLS
FOR THE AEROSPACE INDUSTRY**

Solid carbide drills specially developed for the aerospace industry bear the product name KLENK. The highly specialized products are specifically designed for machining lightweight materials.
